# HOME, MENU, PROFILE (RETURNING USER)

# HOME (RETURNING USER)

Deep link, open social network app on Checkers page.

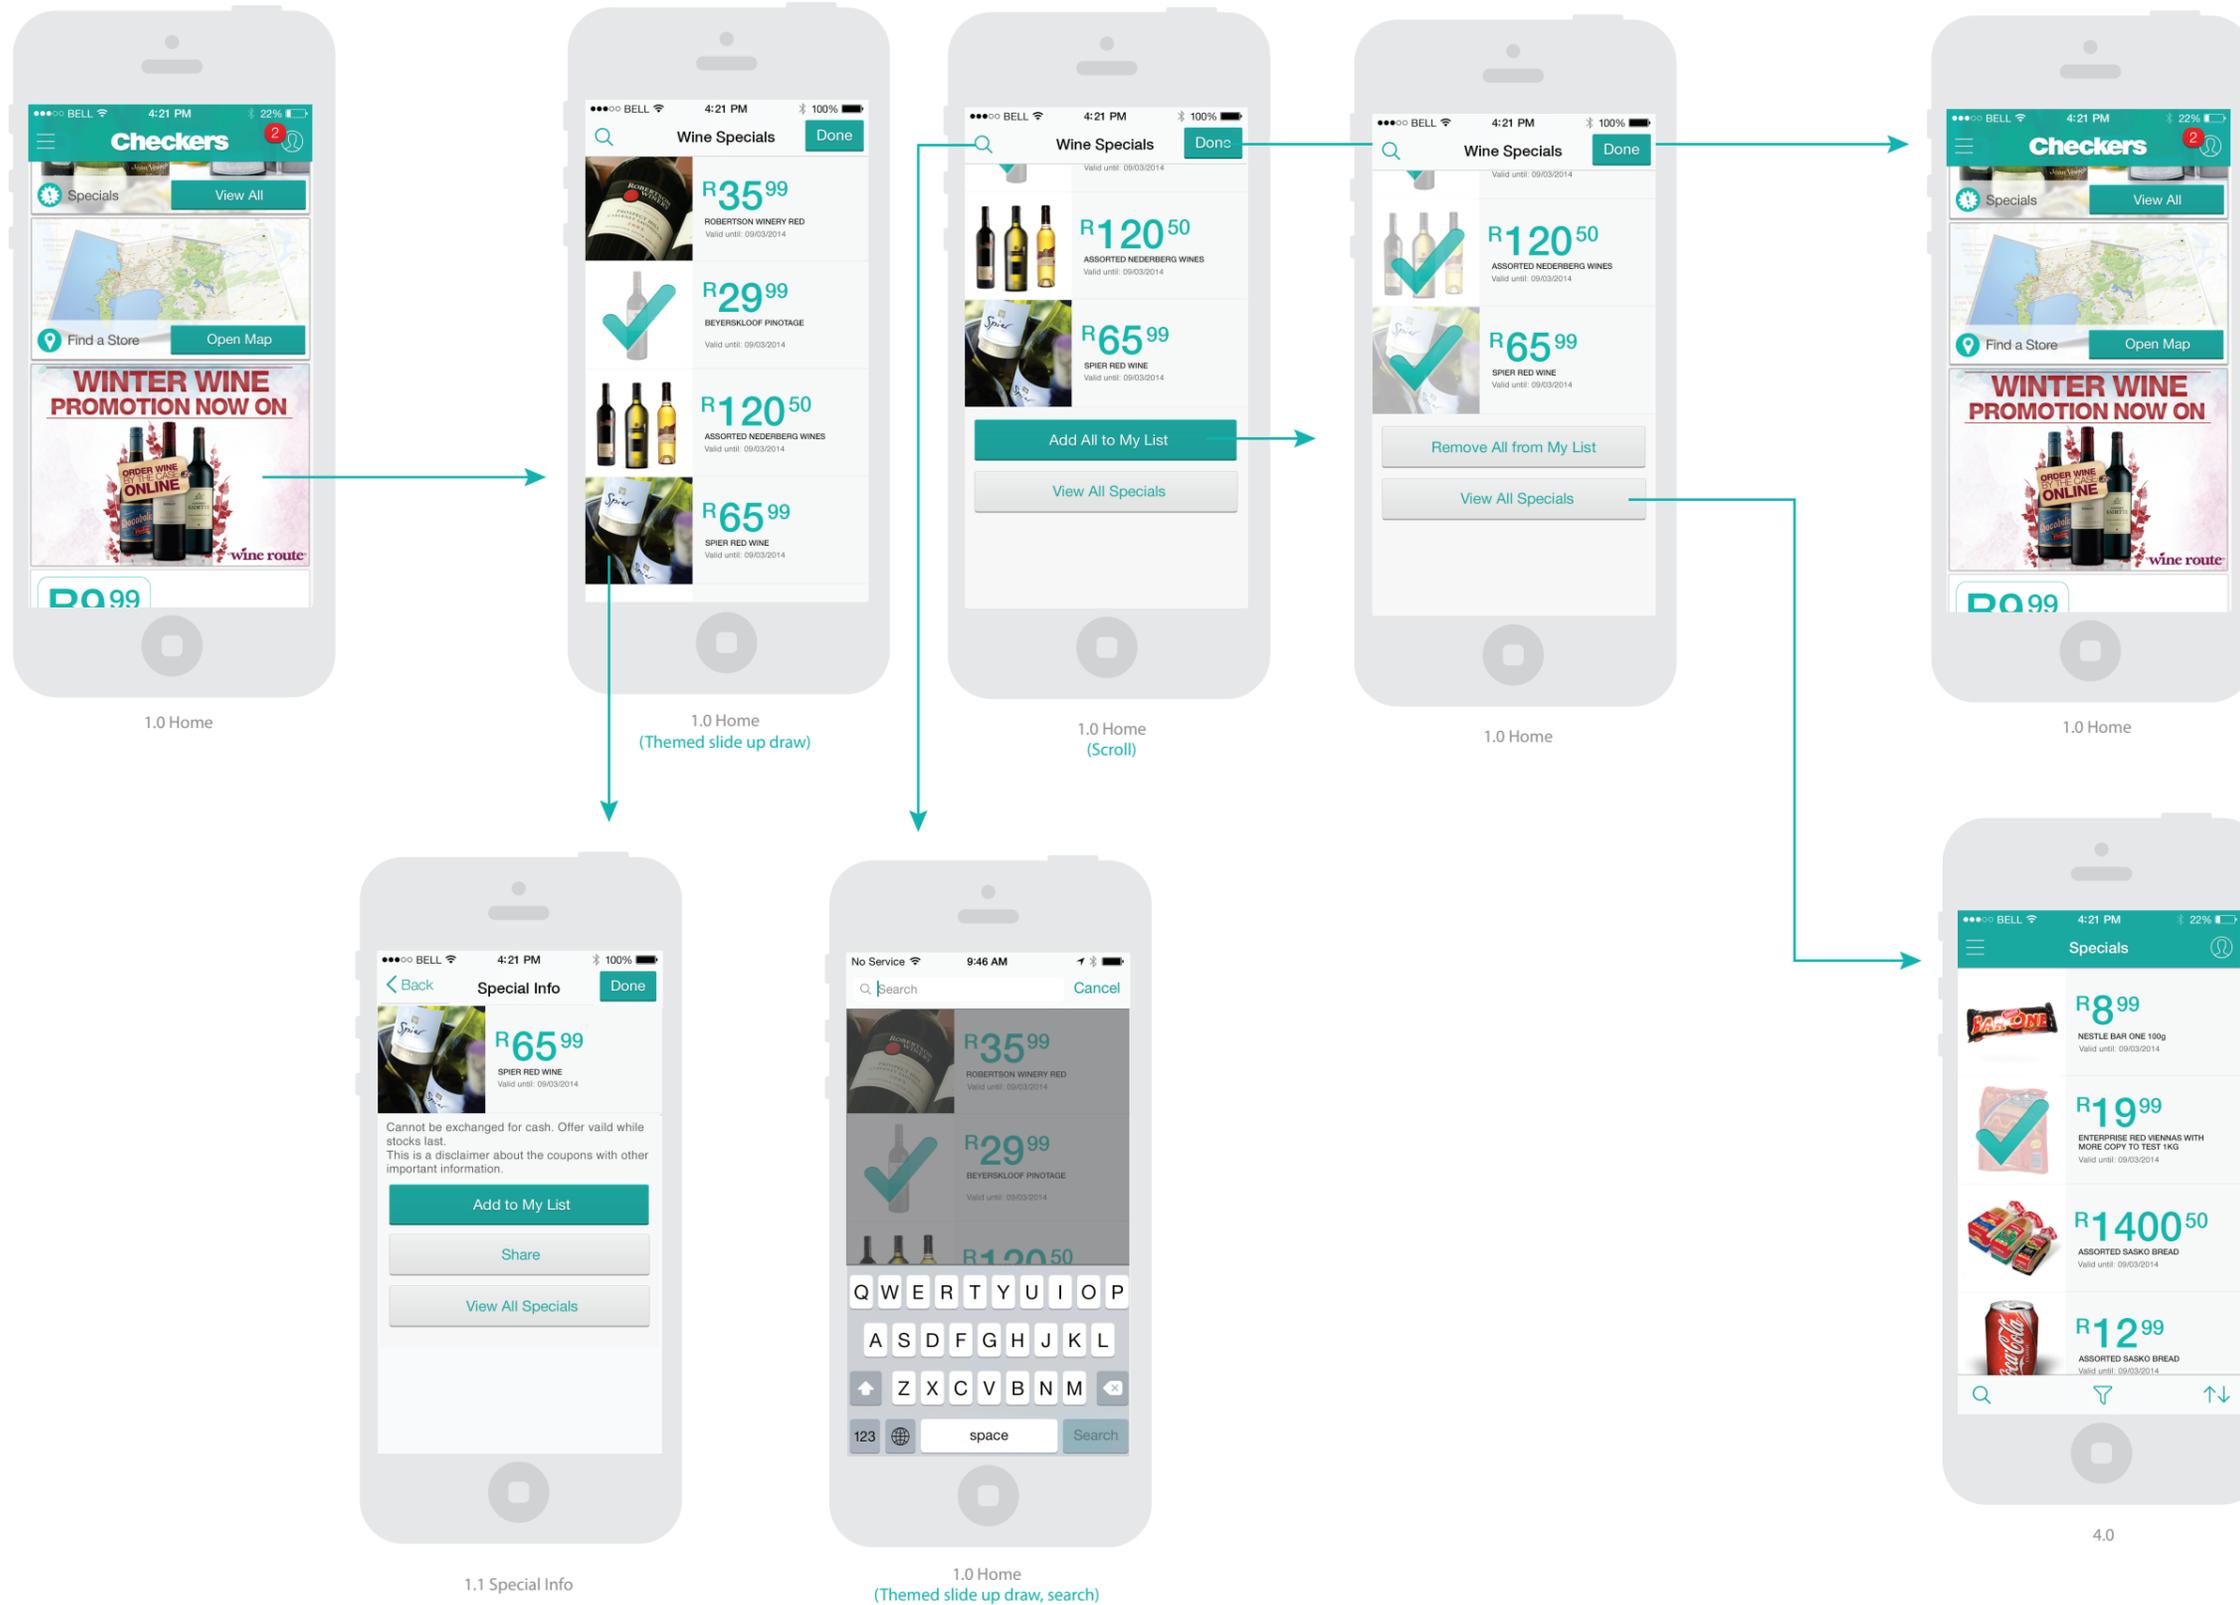

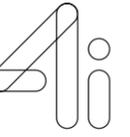

Launch in app browser view

Design Agency / business / strategy dependant.

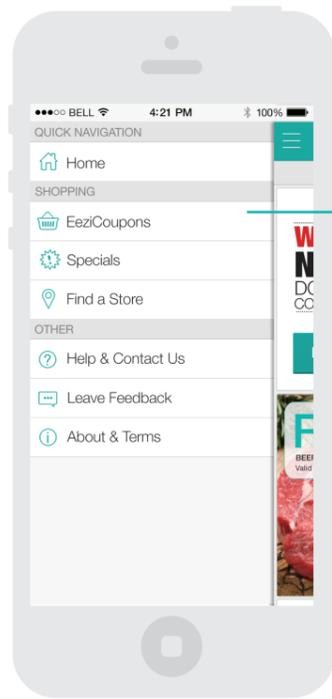

Item will be added directly into the list in the background.

If the user only has 1 list, the Special / Coupon will go straight into that list. A first time user will always have 1 list as default, until they create more.

# MY LIST (SIGNED IN)

*When Coupons / Specials expire from the list. The User will be notified. The item will be saved in the list, so the user can use the list as a grocery list if need be. The Special / Coupon info and icon will be removed and it will become just an item.*

*If there is a coupon or special related to the name of the item, the user will be notified with a icon and the user will be able to add these items to the list.*
